

## **Get Connected To the 21<sup>st</sup> Century through Family Connection by Naviance!**

The Counseling Department is currently piloting a web based college program with the class of 2010 and will be adding the other classes during subsequent years. This program gives students and their families access to do a comprehensive college search, including the latest admissions data from colleges and universities as well as historical data from Lowell's previous class of 2008 and 2009 (data will be available after June, 2009). Juniors will be able to view and analyze information from scatter grams in order to make better college choices. Students will be able to linked to the VICCI and access appointments to meet with college representatives in the fall.

The reg teachers have provided all seniors with a passwords last spring.. If anyone has forgotten this password, please see Mrs. Wanda Lee, the counseling secretary. Due to some personal information in these student accounts, we encourage students to only share their passwords with their parents/guardians.

It is important that all seniors log into Family Connection with their passwords. Some counselors will read the student-generated Lowell Senior Fact Sheet prior to writing their recommendation letters. Students can sign up at <http://connection.naviance.com/lowell>.
